Natural Gas

—ready to serve you instantly

The Public Utility is an important economic factor in the growth and progress of a city. To function efficiently your Gas Company must not only fulfil present needs but must also foresee and prepare for gas service requirements far in advance.

The single purpose of Northwestern Utilities in its extensive construction program for 1930 — as in its human organization, its mechanical equipment and plant—is to be ready at all times to render a service as nearly 100% efficient as is possible for a Public Utility to render.

INSURANCE COMPANIES—LIFE

The Commercial Life Assurance Company

OF CANADA

Head Office - Edmonton, Alberta

What the Commercial Life Offers

1. Complete and Modern Facilities for the Transaction of all Branches of the business of Life Insurance.
2. Unfailing Courtesy and a Desire to Serve.
3. Aggression, Prudence and Soundness on the part of the Company's Management.
4. Sound Life Insurance Counsel from the Company's Officers.
5. Despatch in the Payment of Claims:
The Commercial Life pays its claims within twenty-four hours of the receipt and approval of the proofs of death.
6. Policy Contracts that are easily understood.
7. A Sure Accumulation of Money with profit by means of Commercial Life Gold Bonds.
8. All plans of Life Insurance including the Monthly Income Disability and Double Indemnity features.
9. Financial Strength—The Commercial Life has a Dominion Charter and a Dominion License, and maintains the strong Reserves required by the Dominion Insurance Act. Never has a Policyholder of a Company with a Dominion Charter and License found his policy insecure. The Commercial Life is as Sound as the Dominion.

Will Prove Invaluable to You

Consult the Pages of that Section

This Publication is the Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES, LIMITED
PUBLISHERS

Introductory

The present volume constitutes the 1930 edition of Henderson's Directory of Edmonton. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 53 to 84 and contains data concerning City, Provincial, and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE is embraced in pages 85 to 280, in this feature the names of all streets and avenues are arranged alphabetically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ADVERTISING occupies pages 1 to 52, this section of the Directory printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 281 to 729.

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 733 to 804, and exhibits the various manufacturing, mercantile, and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING EDMONTON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Edmonton, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

POPULATION

The Directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Edmonton is 93,706. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Edmonton, may be obtained for the Directory.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED.

June 6th, 1930.

Edmonton

Edmonton is the capital of Alberta. As a name in Canadian history it dates from 1795. In that year the Hudson's Bay Company built a fur post on the North Saskatchewan River about 25 miles below the site of the present Edmonton, beside Old Fort Augustus, built the previous year by the Northwest Fur Company. It was named after Edmonton, near London, England, by George Sutherland, the Hudson's Bay officer who built it because that was the birthplace of his clerk, John Pruden. In 1807 both Old Fort Edmonton and Old Fort Augustus were destroyed by the Blood Indians and both promptly built new posts—New Fort Edmonton and New Fort Augustus, on the bank of the river where the city stands today. After the amalgamation of the two great fur companies it became the principal fur depot of what is now known as the Province of Alberta. From Fort Edmonton the windings of the Saskatchewan River could be followed for hundreds of miles and never a flotilla up or down stream but halted to trade beneath its wooden walls.

Overland trails led southwards to the Blackfoot Country, and northward to the Athabaska River, the great fur-bearing country of the Crees, the Beavers and the Chipewyans.

Every spring the furs, the leather and the pemmican, gathered from a hundred points, were sent down the river to York Factory and exchanged for goods needed in the fur trade.

Today the trails are laid with railway lines and highways, while on the site of the old fort now stand the Parliament Buildings of Alberta, and on the opposite bank of the river the magnificent buildings of the Provincial University. Around the old site in the modern fashion paved streets, spacious parks, stores, houses, and factories have been built and the former fur post has grown into a metropolitan city. The situation is ideal from the standpoint of landscape beauty, and as with population increase, Edmonton will rank as one of the beautiful cities of the continent.

LOCATION AND ADVANTAGES

Edmonton (latitude 53—35; longitude 113—30) is located 300 miles north of the boundary between Montana and Alberta; 200 miles east of the Rocky Mountains; 770 miles from Vancouver on Canadian National Railways via Jasper; 200 miles from Vancouver on Canadian Pacific Railway via Banff and Calgary; and about 800 miles west of Winnipeg via either Canadian National or Canadian Pacific.

It is the commercial and financial centre of 75,000 square miles of territory, rapidly increasing in population and wealth, and contains at the present time 375,000 people distributed on the plains and in the towns and villages of central and northern Alberta. Moreover, it is the natural gateway to a vast region yet to be developed—a region comprising nearly one-quarter of the area of Canada, namely: the Upper Valley of the Saskatchewan, the great horse range basins of the Athabaska, the Slave, and MacKenzie Rivers, the growing and lucrative trade is growing with that wonderful North, and of course the merchants send their goods to the mining camp, fishing station,

fur post and trappers' cabin from McMurray to the Coronation Gulf.

A CENTRE OF TRANSPORTATION

Always a centre of transportation, Edmonton has kept pace with the natural facilities of her location. It is the hub of the railway system of Alberta. The Transcontinental lines of the Canadian National and the Canadian Pacific pass through Edmonton, and, in addition, twelve branch lines radiate from the city, serving over 300 towns and villages. Rail connections with the Peace and Athabaska rivers open the way to 3,000 miles of lake and river navigation in Northern Alberta and the Northwest Territories.

The city is also an important highway centre. From the east three main highways connect Edmonton with Winnipeg, via Saskatoon or Regina. A gravelled road runs south to the Montana boundary; also to Banff and Waterton Lakes. Good dirt roads have been constructed in Northern Alberta and the Peace River country. By the end of the summer of 1930 a good road will be built from Edmonton to Jasper Park through some of the best fishing and hunting grounds in Western Canada.

HOTELS AND ACCOMMODATION

The city has numerous hotels, apartment houses and private boarding houses that cater to every class of tourist and traveller. The Macdonald Hotel, built in beautiful chateau style, after the famous chateaus of the Loire Valley in France, is one of the finest in Canada.

As to its a city serving so large a community, Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands in larger and older cities in the display of things new and beautiful. They range from the big department store to the specialty shop and the modest corner store. Every style of mercantile trading is represented by the various wholesale houses and jobbing firms.

The Auto Camp, situated on the Edmonton-Calgary Trail, provides motor tourists with most of the facilities of a modern tourist camp—kitchen, laundry, etc. The Edmonton Division of the Alberta Motor Association, headquarters in the Chamber of Commerce office, McLeod Building, welcomes all motorists and gives touring information and other assistance free to visitors.

PARKS AND RECREATION

Edmonton has plenty of places of interest both within and without its borders. The social side of life—sport and recreation—is fostered by many organizations and clubs. The theatres give the public the best in moving pictures, vaudeville and road shows. Golfers have the choice of three golf courses. Tennis, baseball, football, cricket and other games are well provided for either by special athletic grounds or in the several city parks. The principal parks are: Victoria, 200 acres; Riverside, 30 acres; Borden, 60 acres; and Exhibition Park, 80 acres.

Edmonton's Annual Summer Fair draws thousands of visitors. Breeders of livestock from all over Canada and many states are regular exhibitors. A notable feature is the grand open-air review which takes place every night of the fair, in which from 600 to 800 boys and girls take part.

"Where City and Country Meet"—a scene on Saturday morning at the Edmonton Farmers' Market.

MUNICIPAL SWIMMING POOLS

Edmonton is well equipped for safe out-door bathing. Three modernly equipped swimming pools are in operation during the spring, summer and autumn months.

The pools are under the direct charge of the City Engineer. Each pool has a qualified swimming instructor. The water is filtered, heated and sterilized and bacterial tests are regularly made by the city bacteriologist.

EDMONTON GOLF COURSES

Devotees of the royal and ancient game of golf find in Edmonton a perfect setting for their favorite out-of-door sport. The bright, pleasant days of spring and summer with their long twilight evenings provide ideal golfing even after the business of the day is over.

Edmonton Golf and Country Club: The Country Club course occupies a commanding situation on the banks of the Saskatchewan River, some eight miles south-west of the City.

Mayfair Golf and Country Club: The Mayfair course is beautifully situated in the valley of the Saskatchewan just beyond the University of Alberta.

The Municipal Golf Course, in Victoria Park, is one of the beauty spots of Edmonton. On the one hand rises the green slope of the valley; on the other, the Saskatchewan River winds through tree-clad banks. The valley curves with the bends of the river, the whole forming a natural amphitheatre—fit spot for a city's playground.

By the end of 1929, there will be two new golf courses in operation, the Highlands in the east end of the city, and the Beaver, in the Hudson's Bay Reserve, close to the centre of the city.

COMMUNITY ORGANIZATIONS

The principal Service Clubs are well represented in Edmonton. Rotary meets Thursday noon at the Macdonald Hotel; Kiwanis, Monday noon at Macdonald; Gyro, Tuesday noon at Macdonald; Optimists, Thursday noon at Macdonald; Kinsmen, every second Friday, Macdonald Hotel.

All fraternal societies are represented by strong organizations.

EDMONTON CHAMBER OF COMMERCE

Edmonton has had a Chamber of Commerce for over 40 years. Information on all matters relating to the resources of the district, business opportunities, is freely given by a competent staff in the McLeod Building, opposite the Post Office.

A WHOLESALE AND JOBBING CENTRE

The key position of Edmonton on the map of the Northwest and described above, makes it an important distributing point for a large territory. From the earliest times it was a natural trading centre. In the days of the fur trade it was the principal point west of Winnipeg on the transcontinental route and the head of navigation on the North Saskatchewan river. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched. Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms the number of wholesale houses includes branches of the most important firms of Eastern Canada and the United States, representing every branch of mercantile trading. Number of commercial travellers in city and district territory 1,200.

INDUSTRIES

In a city so young, manufacturing is naturally in the initial stages, but a splendid beginning has been made and progress is satisfactory. Edmonton's vast supplies of raw material in the territory surrounding the city, its key position for distribution, and growing market at home and abroad form the basis of an assured industrial expansion. The dairy and meat industries are firmly rooted here and rank with any in the Dominion. During the last few years many industries have sprung up. Prominent examples are men's heavy clothing, fur garments, women's and children's wear, iron, steel and sheet metal products, wire fences, furnaces, brooms, candies, biscuits, beverages, flour, boats, canoes, lumber, window sashes, doors, wooden boxes, cement, brick, paper cartons, etc.

STATISTICS OF INDUSTRY

Number industrial plants.....	198
Employees	5,517
Industrial payroll	\$ 6,065,053
Value manufacturers.....	\$33,719,195

A GRAIN CENTRE

Edmonton is the centre of the grain trade for Northern and Central Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada, including the Wheat Pool, are represented on the Edmonton grain market. Most of the wheat inspected and marketed in Edmonton goes to Vancouver and Prince Rupert.

EDMONTON LIVE STOCK YARDS

One of the public terminal livestock markets of Canada is located at Edmonton and operated under government supervision. In 1929 the sum of \$7,125,400 paid to the farmers of the district for livestock passed through the yards.

AGRICULTURE

Among the Provinces of Canada, Alberta is regarded as one of the richest and most varied in natural, undeveloped wealth. Edmonton is the centre of the largest area of agricultural land of any city in Canada. Most of the land is still in the raw state, but annually over half a million acres of new land is brought under cultivation. The finest quality of wheat, oats, barley, and peas are grown. Wheat grown in Northern Alberta has been winning prizes at world fairs since 1876. In that year, wheat grown by the Roman Catholic Mission at Fort Chipewyan won highest award at Philadelphia. In 1893, wheat from Peace River won first at the World's Fair, Chicago. Herman Trelle of Grande Prairie, has won twice in succession with wheat and oats at the International Grain Show, Chicago. In 1929 Mr. J. H. B. Smith, of Wolf Creek, 100 miles west of Edmonton, won the same distinction. Land and climate that produce cereals of such high quality are among the greatest of a country's natural resources.

DAIRYING

Agriculture in the Edmonton District is developing rapidly along mixed farming lines. Edmonton is the heart of the dairy industry of Alberta.

In 1929 butter production was 9,000,000 pounds in Edmonton and surrounding district; cheese 675,000 pounds and ice cream 425,000 gallons.

COAL

Alberta contains 18 percent of the coal supply of the world and 85 percent of the coal of Canada. In the Edmonton

Edmonton Terminal Elevator

District it is estimated there are thirty billion tons of known coal reserves. There are two seams under the city of Edmonton. Some 45 coal mines are in operation within 50 miles of the city. The number of men employed averages about 1,250, and the annual production about 950,000 tons. West of Edmonton, on the Coal Branch of the Canadian National, lie wonderful bituminous mines producing annually about 1,750,000 tons. The market for Alberta coals is steadily growing over the prairie provinces and into Ontario. Last year the Province produced 7,147,250 tons of coal, valued at \$22,491,061.

NATURAL GAS

Edmonton lies on the edge of one of the greatest natural gas fields in America. The field extends in a broad zone from the Peace River in a south-easterly direction across the province to the Battle River, a distance of over 300 miles. The city is supplied with gas from the Viking field, 80 miles east, and some 8,000 houses in Edmonton are heated in this manner. Sixteen wells produce an open flow of 80,000,000 cubic feet a day.

OIL AND ASPHALT

Alberta has recently become the greatest oil producer in the British Empire.

Important developments are in progress in the Turner Valley field in Southern Alberta. Edmonton is particularly interested in the Wainwright oil field, 120 miles east on the main line of the C.N.R. Here an area of several thousand square miles is regarded as a favorable oil field. Four principal structures have been delimited. Oil or gas has been found in every well drilled in this area. Oil in quantity as high as 300 barrels per day has been found. It is believed there are two horizons here and that more and deeper drilling will discover larger quantities and higher grades.

SALT

Tributary to Edmonton are salt deposits sufficient to supply Western Canada. Beds 100 and 200 feet thick have been found at Fort McMurray. Salt works have been erected and as soon as railway facilities are provided, production will be increased to supply all of Alberta.

Two hundred and fifty miles north of Edmonton in the vicinity of McMurray, there is an area of 25,000 square miles of bituminous sands. These deposits are of great economic value in the construction of hard-surfaced roads. The Research Department of the University

Medical Building, University of Alberta.

of Alberta, and the Mines Branch of Canada, are experimenting on the best methods of separating the bitumen from the crude oil contained in these wonderful deposits. It has been estimated by geologists that these sands on the basis of 10 gallons of crude petroleum per ton contain 30,000 million barrels.

FISHERIES

The fresh water lakes of the Edmonton District provide a growing industry in whitefish and trout, and other commercial fish. Over 6,500,000 pounds were taken from these lakes. Fishing is carried on in winter and summer seasons. The output is sent to the United States.

TIMBER

In the Edmonton Timber Agency there are 25 sawmills operating under license and 84 mills operating under permit. The annual cut in the city is about 32,000,000 feet.

EDUCATION

Edmonton is the educational centre of Alberta. It is the seat of the Provincial University and has an excellent organization of primary and secondary schools. The University was founded in 1906 and opened for teaching in 1908. It has grown to be one of the outstanding institutions of learning in Canada, with a staff of over 100 professors and an attendance of 1,500 students. Degrees are granted in arts, science, agriculture, engineering, medicine, pharmacy, law, and commerce. The University of Alberta is the only body in the province that has the power of granting degrees of academic proficiency. St. Stephen's College (United Church of Canada) and St. Joseph College (Roman Catholic) are theological institutions affiliated with the University.

PRIMARY AND SECONDARY SCHOOLS

There are forty-one Protestant schools for teaching the primary grades, and thirty-six Roman Catholic schools, including the work done in the convents. The needs for secondary education are met by eight high Protestant schools and four Roman Catholic schools. This includes the Technical High School and the Commercial High School.

In addition there are a number of private schools and business colleges.

LIBRARIES

Edmonton has two excellent libraries. The Edmonton City Library contains 70,000 volumes. The Provincial Library, situated in the Parliament Buildings, contains 50,000 volumes, and is rich in works and documents relating to the early history of Western Canada.

HOSPITALS

Edmonton has four hospitals of the first rank—The Royal Alexandra (municipal) 350 beds; the General, operated by the Grey Nuns, 175 beds; the Misericordia, operated by Sisters of the Mercier, 225 beds; the University Hospital under control of the University of Alberta, 160 beds. Isolation Hospital 100 beds (municipal). In addition there is the Provincial Mental Institute, Salvation Army Grace Hospital, and a special hospital operated by the Provincial Health Department for victims of infantile paralysis.

CITY GOVERNMENT

Edmonton is governed by a Council composed of ten aldermen, elected for two years, one-half retiring each year, presided over by a Mayor, elected for

one year, and a Board of two Commissioners, one of whom is the Mayor. The aldermanic board or Council may be termed the legislative arm, and the Commissioners the executive arm of the municipal machinery. The Commissioners have "a general jurisdiction over the affairs of the city, including the care, management and control of the police, fire brigade, and other public services and of the public works and utilities of the city, and of all property works, improvements, roads, streets, and other public places owned and controlled by the city and such other powers and duties as may be designated to them by the Council."

The Council has full control of raising and expending moneys required for city administration, and over the rates and the charges for the various public utilities owned and operated by the city.

Since 1921 there has been only two Commissioners, the Mayor, joint Commissioner of Finance, also Commissioner for Police, Markets, Parks, and Public Health; the other Commissioner besides being joint Commissioner of Finance is specially in charge of the public utilities.

Libraries, municipal hospital, Board of Health, sinking funds, exhibitions, public welfare, are administered by appointed boards which are under the direct control of Council.

For a few years the Mayor and aldermen were elected by the method of proportional representation, but this system, after a plebiscite was taken, was abandoned in 1923.

THE ELECTORAL BODY

Every person 21 years of age or over who is a British subject and who has resided six months in the City is entitled to be on the voters' list. There are two classes of electors—burgesses and others. Burgesses alone may vote on money by-laws. A burgess is an elector who is assessed on real property, minimum value \$200, or pays a business tax on the same amount.

Nominations and elections are held as follows: Nominations, 1st Monday in December; elections, 2nd Monday in December; hours of polling 9 a.m. to 5 p.m., which may be extended by resolution of Council to 8 p.m. The practice is to keep polls open until 7.30 p.m.

ASSESSMENT, TAXES, ETC.

Land is assessed at its full actual value, and improvements may be assessed at 60 percent of their value. Business taxes are assessed on a percentage of the rent paid by the ratepayer on a graduated scale, the average of which is 10 percent. There is also a service tax based on income payable by persons in the city not otherwise taxed. There is also a special tax on franchises based gross earnings. Appeals against assessments lie to the Commissioners and Council with a final appeal to a judge of the District Court. Other revenue for city purposes is derived from license fees, market fees and surpluses on the utilities.

TAX RECOVERY

If taxes are not paid on real property before November 1st of the year following in which the tax is due, the assessor files a caveat in the Land Titles Office. The owner then has two years to redeem which, if not done, the title automatically vests in the city without further procedure.

Swimming Pool Scene

TAX EXEMPTIONS

Exemption from taxes apply to following classes of property: places of worship (1 acre), city property, crown property, burying grounds, public schools, institutions of learning and hospital to extent of 4 acres. The latter institutions are liable for local improvement taxes.

MUNICIPAL OWNERSHIP

Edmonton owns and operates all the public utilities of the city—light, power, telephones, waterworks, street railway and airport. The principle of public ownership has been firmly adhered to by the people of the city since the purchase of electric light system in 1902, when the then town of Edmonton made its first venture upon this policy.

On the whole, this policy has been successful in Edmonton. Since its inception 27 years ago, the city's utilities have made a total surplus classified as

follows as of the 31st of December, 1929:

Electric light.....	\$1,756,742.06
Power Plant.....	1,435,968.32
Telephones	1,115,173.85
Waterworks	697,920.56

\$5,005,802.79

Less deficit on street
railway\$1,476,859.62

Total net surplus.....\$3,528,943.17

In addition to the foregoing surplus the several services have set aside reserves amounting to \$1,516,000 to provide for extensions of plants and for new equipment, bringing the total surplus over \$5,000,000.

ELECTRIC POWER PLANT

The annual production of electrical energy amounts to 42,000,000 kilowatt hours and is increasing rapidly to keep pace with the industrial growth of the community. Electricity is generated by steam produced in a boiler plant fired by Edmonton coal and consists of 16 water tube boilers. The capacity of the

New Municipal Golf Club House

turbine generators is 23,000 kilowatts. In 1928 a new 10,000 kilowatt turbine generator was added to the plant. It was the first turbine of this capacity on the continent operating at the high speed of 3,600 revolutions per minute. The current is at a voltage of 2,300 volts, and at this pressure is transmitted to the outgoing feeders. But in order to obtain economical transmission it is stepped up by transformers to a voltage of 13,200.

WATER PUMPING AND FILTRATION

Water is pumped from the Saskatchewan River. Due to turbidity at high water periods all water for domestic and industrial purposes is filtered and sterilized before forced into the city mains. Low-lift pumps with a capacity of 54,000,000 gallons per day raise the water from the river to a mechanical clarifier basin, where sediment is removed. Thence the water flows into agitator tanks to which a proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large stilling basins where the hydrate coagulates all the sediments and deposits them on the bottom of the basin. Now the water is ready for filtering through sand and gravel beds which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains it is treated with liquid chlorine in quantities proportioned to bacterial tests, which are made daily. By these means the water supply is clear and pure. The pumps have capacity of 28½ million gallons per day.

THE STREET RAILWAY

The street railway system commenced operation on November 9, 1908, with 12 miles of track and 2 cars. By 1914 trackage increased to 52 miles and rolling stock to 87 cars. Since that time there has been little expansion. By reason of the large area of the city and wide river valley, causing the line to be operated through non-populated distances, this utility has been the weak sister of the municipal group. Conditions, however, are improving and before long the street railway is expected to move over to the surplus column. Present mileage 56 miles.

TELEPHONES

Edmonton embarked in the telephone business January 1st, 1905, by purchasing the Edmonton District Telephone Company. In 1908 the Strowger Automatic system was installed and 800 subscribers cut over from the old magneto switch board. Since that time there has been an average increase of 700 telephones every year. By the end of this year most of the subscribers will be

cut over to a new two-wire Strowger system, cost over \$500,000. The system is arranged now on a 5-digit with an ultimate capacity of 99,000 lines. Miles of wire, 67,235 miles; 87 private branch exchanges; 4 private automatic exchanges, and 168 public pay stations.

GENERAL STATISTICS FOR 1929

Population	76,000
Building Permits	\$5,670,185
Bank Clearings	\$358,961,731
Gross Earnings	\$3,872,483

(b) Utilities	\$11,497,428.01
(c) Sinking Fund.....	\$ 4,586,402.13
Net funded debt.....	\$15,792,859.66

WATERWORKS DEPARTMENT

Municipally Owned—Operated by Council and Commissioners.

Supply—Pumped from North Saskatchewan River at centre of distribution.

Electric and Steam Driven Pumps—Capacity low lift 35,000,000 gallons per day. High lift 35,000,000 gallons per day. Stand by steam 8,000,000 gallons per day.

Reservoirs—One and one-half million gallons capacity; also 1,500,000 gallons capacity Sedimentation and Dorr Tanks mechanical clarifier and agitator tanks. Chlorine and Alum mechanical mixers and necessary buildings.

Purification—16 Roberts Mechanical Filters. Two 30" and one 20" direct high pressure feed mains to City.

Distribution System—Comprises 126 miles C. I. mains, 27 miles of wood mains and 54 miles of steel mains. Total mileage of Distribution System—209 miles

Services—17,008.

Meters and Rates—80% of whole distribution system metered rates from 28c per 100 cubic feet down to 11c per 100 cubic feet—according to consumption.

Capitalization—to December 31st, 1929—\$3,147,656.76

Revenue in 1929—Amounted to \$639,078.84

Consumption—7,000,000 gallons per day. Domestic per capita consumption per day—52 gallons.

Total daily per capita 87.9 gallons.

Year's average normal increased consumption—2.2%

J. C. Burger Lumber Co. Ltd.

THE DIRECTORY IS THE COMMON INTERMEDIARY
BETWEEN BUYER AND SELLER

This Publication is the Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
